DETAILED ACTION

Response to Amendment

Applicant's response of 05 July 2007 has been received and entered. Claims 39 and 40 have been amended and claims 1-38 have been canceled. Claims 39-45 are currently pending and under examination in the instant application.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Any objection or rejection of record which is not expressly repeated in this action has been overcome by Applicant's response and withdrawn.

Allowable Subject Matter

Applicant's arguments regarding the ability of the claimed polypeptide to inhibit vascular endothelial growth factor stimulated proliferation of endothelial cell growth are persuasive. Applicant asserts that the assay which demonstrates this activity is disclosed in PCT/US98/19330, which has a filing date of 9/16/1998. Applicant has claimed benefit to this PCT application in the amendment filed 09 March 2004.

Therefore, the rejections of record have been overcome by Applicant's argument.

Claims 39-45 are allowed.

Ex Parte Quayle

This application is in condition for allowance except for the following formal matters:

The claim of priority in the first paragraph of the specification is not accurate and does not correspond to what has been entered into the USPTO database. Applicant should file an amendment to the specification to delete the current first paragraph and replace it with a concise claim of benefit to the earlier applications for which the instant application is relying upon for support for the claimed invention.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
